SUMMARY

UX/UI and product designer with a fine arts foundation and technical depth across interaction design, data visualization, and spatial computing. Experienced in end-to-end web, mobile, and XR design, from research and wireframes to prototyping and production handoff.

EXPERIENCE

Visualization Designer

2025 – Present

ETS & WestEd — Gates Foundation Degree Mapping Project

- Designed and shipped an interactive data visualization mapping connections between Calculus and downstream disciplines — starting with Computer Science and Mechanical Engineering, with additional fields in development — translating complex relational data into an accessible, intuitive interface.
- Led end-to-end redesigns of 3+ core website sections, resolving key usability gaps through cross-functional collaboration with engineering and product teams.

Artist Assistant & Social Media Manager

Jul 2026 – Present

YiKai Studio — Artist YiKai

- Managed studio operations for artist YiKai, including exhibition coordination, artwork documentation and archiving, and communication with galleries, collectors, and collaborators.
- Ran the studio's social media accounts end-to-end: planned content calendars, produced photo and video assets, wrote copy, and grew audience engagement across platforms.
- Designed promotional materials, portfolio decks, and web presence to support exhibitions, sales, and press outreach.

Graduate Teaching Assistant

Summer 2026

USC Viterbi School of Engineering x USC Viterbi CS@SC

- Instructed 70+ pre-college students across multiple engineering disciplines including circuits, robotics, 3D modeling, rocket simulation, and drone programming.
- Developed curriculum materials, slide decks, and activity kits spanning AI foundations, bioengineering, digital logic, and computer engineering.

Spatial Computing Researcher — Product Visualization Sprint

Spring 2026

USC Iovine and Young Academy x American Honda

- Selected for a research lab with American Honda under faculty Carsten Becker, exploring high-fidelity spatial simulation of physical products for industrial design review.
- Built for Apple Vision Pro, evaluating real-time 3D streaming via NVIDIA CloudXR/Omniverse USD delivery and interaction fidelity within visionOS; explored SharePlay for multi-user reviews and prototyped Xcode annotation tools.

Media & UI Designer

2023 – Present

US Arts and Design and UniArtz Academy

- Designed and maintained high-performance websites for 20+ clients, establishing scalable design systems and brand guidelines for cohesive digital experiences.
- Coordinated with developers and content teams on responsive layouts and optimized media pipelines for web and social distribution.

EDUCATION

University of Southern California

2025 – 2027

MS, Integrated Design, Business & Technology

Claremont Graduate University

2023 – 2025

Master of Fine Arts

University of California, Davis

2020 – 2023

Bachelor of Arts in Design

SKILLS

Design Tools — Figma, Illustrator, Photoshop, InDesign, After Effects, Blender, Cinema 4D, Rhino & Grasshopper, Vectorworks, Procreate, Sketch, Framer, Webflow, Canva, Miro, ProtoPie

UX Methods — User Interviews, Personas, Storyboarding, Journey Mapping, Wireframing, Prototyping, Usability & A/B Testing

Development — JavaScript, Python, HTML, CSS, Swift, React, D3.js, Processing, Arduino, TouchDesigner, Mermaid

AI Tools — Claude Code, Cursor, Trae, Kimi, Figma Make, Figma & FigJam MCP, Stable Diffusion/ComfyUI, Azure OpenAI, Midjourney, Runway, ChatGPT, Gemini, DeepSeek, Notion AI, Adobe Firefly

3D & Spatial — Unity, Unity PolySpatial, RealityKit, SwiftUI, Fusion 360, Reality Composer Pro
